

ATLAS FILTRI

improving water

housings and cartridges with quick-fit BX system

HEIGHT OF MODELS:

5" 7" 10" 20"

supplemented with
Mignon SX series

Atlas Filtri BX Series.

Safety features of the BX system for filtration

housings

3P

- 5" Medium Plus
- 7" Junior Plus
- 10" Senior Plus
- 20" Master Plus

3P Duplex

- 5" Medium Plus
- 7" Junior Plus
- 10" Senior Plus
- 20" Master Plus

● SIMPLE

The exclusive BX system ensures that one simple movement is all it takes to obtain a perfect fit.

● RAPID

Just a few seconds and the cartridge is replaced.

● SAFE

The double o-ring ensures a perfectly watertight fit.

For domestic use

For technical and industrial use

f the exclusive BX ion professionals

cartridges

For mechanical filtration

- plastic net
- stainless steel net
- wound polypropylene thread
- special paper
- quartzite
- ceramic
- polypropylene-borosilicate multi-layer

For water treatment

- granular activated carbon
- carbon block
- polyphosphate
- ionic exchange resins
- empty containers

housings Plus 3P BX

for quick-fit cartridges with double O-ring

Medium Junior Master Senior

APPLICATIONS

Filtration and treatment of water with neutral pH and drinking water.

Domestic use: filtration and treatment of drinking water, protection of taps, boilers, washing machines, and other installations.

Technical use: pre-filtration, micro-filtration; protection of pumps, heating systems, softeners, demineralising and chlorine-removing appliances, reverse osmosis units.

WORKING CONDITIONS

Max working pressure _____ 8 BAR

Max working temperature _____ 45°C

SPECIFICATIONS

Non-toxic materials, suitable for drinking water.

Head and ring nut: reinforced polypropylene.

Transparent bowl: SAN.

O-ring: ETP.

Breather-valve: body polypropylene, O-ring ETP.

IN/OUT threads: CW 614 N brass inserts.

AC BX pleated multi-layer filtering medium - 0,2 and 0,45 micron throw-away cartridge

APPLICATIONS

Filtration of: very fine particles, colloids and some micro-organisms.
Domestic use: filtration of drinking water.
Technical use: filtration of process waters, filtration of demineralised water, fine filtration of beverages (wines, liqueurs, syrups), intermediate filtration of process water for food industry, pharmaceutical and cosmetic industry; fine pre-filtration for reverse osmosis membranes.
Average life-span: 3 - 6 months.
Maintenance: none.

Remark - Use a pre-filter to protect the cartridge.

CA BX polyester felt filtering medium and granular activated carbon - 25 micron throw-away cartridge

APPLICATIONS

Pre-Filtration and elimination of: unpleasant odours and flavours from water caused by chlorine and other organic substances; removal of pesticides, insecticides, chlorinate solvents.

Domestic use: filtration and anti-chlorine treatment in point-of-entry appliances and in point-of-use appliances: washing machines, showers and drinking water units.

Technical use: anti-chlorine treatment in alimentary, chemical and pharmaceutical industry, pre-treatment for the protection of reverse osmosis units.

Average life-span: 3 months.

Maintenance: none.

WORKING CONDITIONS

Max working temperature _____ 45°C

SPECIFICATIONS

Non toxic materials, suitable for drinking water.

Filtering medium: polyester felt.

End caps and grid: polypropylene.

O-rings: ETP.

Treating material: granular activated carbon of coconut shell.

KDF Cartridges with KDF® for reduction of heavy-metals.

Cartridges with opaque container.

HA BX container with polyphosphate crystals throw-away cartridge

APPLICATION

Anti-scale and anticorrosion protection of domestic and industrial installations.

Domestic use: protection of water pipes, taps, showers, washing machines, boilers. Cartridge suitable for drinking water when used with Dosaprop PROPORTIONAL DOSING SYSTEMS in compliance with UE Directive 98/83 CE (see catalogue anti-scale systems).

Technical use: protection of heating systems, heat exchangers, protection of reverse osmosis units, protection of industrial water systems and other installations.

Average life-span: about 6 months.

Maintenance: none.

Remark - Use a pre-filter to protect the cartridge.

WORKING CONDITIONS

Max working temperature _____ 35°C

Max total hardness _____ 50°F (500 ppm CaCO₃)

Remark - the treated water can be heated up to 75°-80°C, above that temperature the polyphosphate loses gradually its effectiveness.

SPECIFICATIONS

Non-toxic materials, suitable for drinking water.

Container: polystyrene.

End cap and grid: polystyrene.

O-rings: ETP.

Treating material: sodium polyphosphate crystals.

Remark - Storage time: max 12 months.

S cartridges with siliphosphate spheres.

Polyphosphate treatment provides a simple, effective and economic solution to problems of calcareous scale and encrustations: polyphosphate dissolved in water prevents the build-up of scale and helps break down existing deposits. It forms a thin film which protects the installation from corrosion.

QA-CF BX container with strong cationic resin for softening treatment throw-away cartridge

APPLICATIONS

Elimination of total hardness, production of small quantities of softened water.

Domestic use: softening of water for ironing and other appliances.

Technical use: any use requiring softened water (laboratory, chemistry).

Average life-span: see the table below.

Maintenance: none.

Remark - Use a pre-filter to protect the cartridge.

Note: the cartridge does not change its colour when exhausted. Check the depletion of the resin with the specific Atlas Filtri EASY TEST strips.

WORKING CONDITIONS

Max working temperature _____ 45°C

QA-AF BX container with strong anionic resin for anti-nitrates treatment throw-away cartridge

APPLICATIONS

Reduction of nitrates in small domestic and industrial appliances.

Domestic use: production of drinking water with nitrates concentration below 10 mg/l, in compliance with the World Health Organisation guidelines.

Technical use: protection of reverse osmosis units.

Average life-span: see the table below.

Maintenance: none.

Remark - Use a pre-filter to protect the cartridge.

CA-SE BX sintered carbon block filtering medium - 0,3 micron throw-away cartridge

APPLICATIONS

Filtration of: very fine particles, micro-organisms and elimination of unpleasant odours and flavours caused by chlorine or other organic substances; removal of pesticides, insecticides, chlorinate solvents.

Domestic use: filtration and treatment of drinking water in point-of-use appliances.

Technical use: pre-treatment for the protection of reverse osmosis units. Anti-chlorine treatment in alimentary, chemical and pharmaceutical industry.

Average life-span: about 6 - 12 months.

Maintenance: surface scraping every 2 - 3 months.

Remark - Use a pre-filter to protect the cartridge.

WORKING CONDITIONS

Max working temperature _____ 45°C

SPECIFICATIONS

Non-toxic materials, suitable for drinking water.

Filtering medium: sintered block of activated carbon, silver treated.

End caps: polypropylene.

O-rings: ETP.

VARIANTS available on minimum quantity Cartridges with different heights.

"Carbon Block" cartridge: a cohesive block of activated carbon powder silver treated for bacteriostatic action. Avoids the typical problems caused by granular activated carbon: the release of dust and the formation of preferential channels in the filter bed. The cartridge is particularly suitable for the protection of reverse osmosis membranes. The filtration level is controlled by a process of sintering.

CR BX polyethylene filtering medium with activated carbon powder - 1 micron throw-away cartridge

APPLICATIONS

Filtration of: fine particles and some micro-organisms, elimination of unpleasant odours and flavours from water caused by chlorine and other organic substances; removal of pesticides, insecticides, chlorinate solvents.

Domestic use: filtration and treatment of drinking water in point-of-use appliances.

Technical use: pre-treatment for the protection of reverse osmosis units. Anti-chlorine treatment in alimentary, chemical and pharmaceutical industry.

Average life-span: 3-6 months.

Maintenance: none.

Remark - Use a pre-filter to protect the cartridge.

WORKING CONDITIONS

Max working temperature _____ 45°C

SPECIFICATIONS

Non-toxic materials, suitable for drinking water.

Container: ABS.

Filtering medium: polyethylene.

O-rings: ETP.

Treating material: mix of activated carbon and copper powder.

Cartridge made of an outer plastic tube with a sack-shaped inner filtering medium which contains activated carbon powder and copper powder for bacteriostatic action.

housings Mignon 3P SX

for cartridges with standard flat seals

Mignon S

Mignon L

Mignon Duplex

APPLICATIONS

Filtration and treatment of water with neutral pH and drinking water.

Domestic use: filtration of drinking water, protection of taps, boilers, washing machines, and other installations.

Technical use: pre-filtration, micro-filtration; protection of pumps, heating systems, softeners, demineralising and chlorine-removing appliances, reverse osmosis units.

WORKING CONDITIONS

Max. working pressure _____ 7 BAR

Max. working temperature _____ 45°C

SPECIFICATIONS

Non-toxic materials, suitable for drinking water.

Head and ring nut: ABS.

Transparent bowl: SAN.

O-ring: ETP.

Breather-valve: body polypropylene, O-ring ETP.

IN/OUT threads: CW 614 N brass inserts.

25 kg pack

Polyphosphate crystals 6/10 0,5 Kg pack
1,5 Kg pack
25 kg pack

Granular activated carbon 0,3 kg pack, 20 kg pack.

Strong cationic resin (softening) 25 litres pack.

Strong anionic resin (anti-nitrates) 25 litres pack.

Mixed bed resin (demineralisation) 25 litres pack.

KDF® 25 kg pack.

(KDF® is a registered trade mark of Fluid Treatment, Inc. USA).

Easy test strips for rapid check of the total hardness, in skin packs of 5 strips and in packages of 50 skin packs.

Installation and maintenance

Installation and maintenance of the products must be carried out in strict accordance with the instructions provided in the INSTALLATION INSTRUCTIONS manual, which is included in the housing package. Failure to comply with the instructions will render the warranty null and void.

In particular, it is forbidden to: exceed the operating conditions indicated, install the product in circuits liable to a “water hammer” effect without the use of a protection system for the filter, to filter liquids other than pH-neutral water, to filter compressed air or gas, to subject the filters to return hot water, to expose the filter to freezing or excessive heat.

The O-ring gaskets of the housing are factory-lubricated: further lubrication is not recommended.

General operating conditions

Housings and cartridges must be used within the limits of prescribed working conditions and exclusively for the applications indicated in the catalogue. Applications exceeding the limits prescribed or different from those indicated are prohibited, unless expressly authorized by the manufacturer.

PUTTIES

Important

Those products which may be used for the filtration and treatment of drinking water are clearly indicated in the catalogue. All products are fully compliant with European (EU) regulations.

All the other products can be used in technological applications.

Atlas Filtri declines all responsibility in the case of non-compliance with the laws in force on the use of its products for the filtration and treatment of drinking water.

HEMP

TEFLON TAPE

Caution

All types of cartridge must be disposed off in accordance with the laws in force.

- ◆ **The most extensive range of products** in the water filtration/treatment sector.
- ◆ **Advice** on all aspects of water treatment, filtration and conditioning.
- ◆ **Information Bureau** at your service with all the latest technical and commercial information.
- ◆ **Punctual delivery** to all areas.
- ◆ **Detailed installation and servicing instructions** provided with all products.

- ▶ **FILTERS SX**
Plastic housings and cartridges with standard flat seals (DOE). Height of models 4", 5", 7", 10", 20".
- ▶ **FILTERS BX**
Plastic housings and cartridges featuring 'quick-fit' connections with double O-ring. Height of models 5", 7", 10", 20".
- ▶ **FILTERS K**
Brass head housings and cartridges featuring 'quick-fit' connections with double O-ring. Height of models 5", 7", 10", 20".
- ▶ **PROFESSIONAL HOUSINGS AND FILTERS**
Housings with brass head and plastic bowl or stainless steel bowl. Height of models 5" and 10".
Stainless steel housings. Height of models 10".
Multi-cartridge stainless steel housings, for 3, 5, 6 cartridges. Height of models 20", 30", 40".
Manual or automatic self-cleaning and back-washing filters.
- ▶ **ANTI-SCALE SYSTEMS**
Proportional and non-proportional dosing systems with polyphosphate crystals. Height of models 4", 5", 7", 10".
Brass-head proportional dosing systems with polyphosphate powder or with ready-to-use polyphosphate refill. Template models, in-line models, 'T' connection models, models with or without by-pass valve.
Magnetic anti-scale systems.
- ▶ **TECHNO APPLIANCES**
Automatic softeners with timer or volumetric control valves. Models with integrated or with separated brine tank. Capacity of models from 10 to 70 litres.
Automatic iron-removing appliances with timer control valves. Capacity of models from 25 to 75 litres.
Automatic chlorine-removing appliances with timer control valves. Capacity of models from 25 to 100 litres.
Pumps and products for disinfection.
UV-lamp units for water sterilization. Flow rate from 300 to 2800 litres/h.
